# Keys to Success

## ART

You need to spend at least half of the time looking at the thing you are copying from and not just your own drawing.

Restarting all the time isn't the answer, you need to stick with something to make it better.

Instead of saying 'I can't' say instead 'I'm still learning how to!'

Concentrate on getting better at art, there is no such thing as perfect.

Always make sure you have a pencil, eraser and sharpener!
